## **Two USU Geologists Selected as 2018 Geological Society of America Fellows**

Dr. Carol Dehler and Dr. Tammy Rittenour, both faculty in the Geology Department at USU, have been selected as fellows in the Geological Society of America (GSA). This is an honor bestowed on the best of our profession. GSA members are nominated by existing GSA Fellows in recognition of their distinguished contributions to the geosciences through such avenues as publications, applied research, teaching, administration of geological programs, contributing to the public awareness of geology, leadership of professional organizations, and taking on editorial, bibliographic, and library responsibilities.
