Ethan MacKay Accepts Position at Bass Pro Shops

By Chase Anderson | September 21, 2022

Ethan MacKay, an Outdoor Product Design & Development student, accepted a position at Bass Pro Shops as an Industrial Designer (remote)!

"I'm thrilled to continue to work with Bass Pro Shops as a Remote Industrial Designer as I finish up with my last year of school. The OPDD program has helped me get the network and skills necessary to be able to land a dream job like this one. I'm so thankful for all that my professors and peers at USU have taught me, and I look forward to continuing to learn from the product development team at Bass Pro Shops!"

-Ethan MacKay | Class of 2023
