Trent Saarelainen Accepts Role at Bushnell

By Chase Anderson | May 11, 2022

Trent Saarelainen, a graduate of Outdoor Product Design & Development, accepted a role at Bushnell as an Assistant Product Manager.

"I'm grateful for the opportunities that came from participating in the OPDD program. It really allowed me to choose my future career path. I'm excited to start my new position at Bushnell as an Assistant Product Manager over the rifle scopes, rangefinders, and night vision categories. I look forward to improving my abilities as a designer, developer, and product manager, and I'm eager to implement the skills I have learned in the OPDD program."

-Trent Saarelainen / Class of 2022
