Encompass Fellows Program

It is with great excitement that we announce a late-breaking additional award opportunity – in conjunction with the 2021 Annual Meeting!

As a graduate student (MS or PhD) or post doc interested in furthering your career in the agronomic, crop, soil, and environmental sciences, consider applying for the new **Encompass Scholars Fellow Program**, generously sponsored by *Bayer Crop Science*!

This Fellows program is open to all graduate students and post-docs who have a submitted abstract for the ASA-CSSA-SSSA Annual Meeting, November 7-10, 2021, Salt Lake City, UT.

Up to 8 students will be selected for the 2021-22 Class of Fellows.

Fellows will be graduate students (MS or PhD) near the end of graduation and post docs seeking employment in the agronomic, crops, soils, and environmental science fields within two years. The one-year program is designed to provide two immersive in-person experiences with additional virtual events. Within this immersive experience, it is anticipated and expected that Fellows will actively participate in these events!

A description of the Encompass Scholarship

USU Graduate Student Awarded Encompass Scholarship

October 31, 2021

USU student JJ Chen has been selected as an Encompass Scholar. As a Encompass Scholar, he will attend and present research at the ASA-CSSA-SSA 2021 Annual Meeting during November 7-10, 2021, as well as take part in a graduate student conference, policy lunch, and sponsor dinner. As part of the Encompass Scholarship, JJ becomes a member of the Soil Science Society of America. In addition, the scholarship provides JJ leadership trainings and accessibility to paid webinars of SSSA.
