

Student application for Robeson Funds

In memory of Kim Robeson, an MS graduate alum, the department has established the Robeson Fund. This fund supports graduate student research efforts wherein modest assistance will help advance projects. For example, proposals could be to support preliminary fieldwork, sampling, travel to labs for analyses that cannot be done at USU, lab analyses on campus, and research-related activities that will involve groups of students. Second-year students should have a plan of study on file, a committee formed, and a Thesis proposal completed.

Please fill out the following information to be considered for this award.

Name: _____

Project Title: _____

Short Description of Project Objectives [200 words max]

Description of how funding will be used, including the nature of student learning and research outcomes that are likely to result [200 words max]
